

Each CAPR System is comprised of four components
 Helmet - Battery - Battery Belt - Battery Charger

- The Belt is common to all systems
- The Helmet and Battery determine the available Head/Face Covers and other options available to make up a complete Configuration of a specific System

Cage

- 2051-07 shown

Cover

- Cage is shown - shipped with all Helmets
- Options include Filter Cartridges, Filter Cover Caps, Hard Hats
- Options allow optimizing the Configuration to the Application Requirements

Helmet

- 2081-03 shown
- Options include 2083-03
- All Helmets ship with a Cage, Liner, and Power Cord

Power Cord

- 2590-05 shown

Liner

- 2071-08 shown
- Options include 2071-07

Battery

- 2500-37TSC shown
- Options include 2500-36TSC

- Battery choices allow optimizing size and weight for individual comfort
- Battery typical run time per full charge allows optimizing charging frequency to duration of use per day

Belt

- 2000-76 shown
- Only one belt is needed as it is placed under the outer gown and doesn't need cleaning/decontamination

Charger

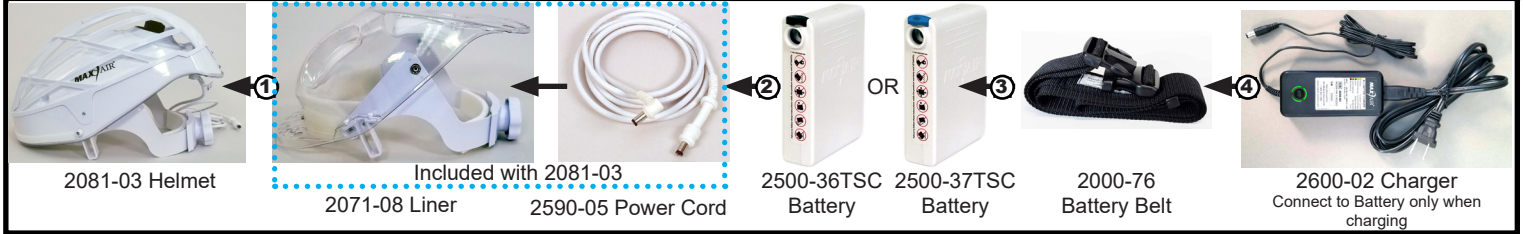

- 2600-02 shown
- Options include 2602-06 6-Gang Charger
- Charger choices allow optimizing number of batteries to number of electrical outlets available

The CA-DLC-CAPR System Series is based on the 2081-03 CAPR Helmet

The two Systems within this Series differ only by the Battery, the "36", or "37" Battery
These Systems are configured with Standard Cuff, Shroud, and Hood Face/Head Covers

CA-DLC-CAPR-36 (with 2500-36TSC Battery) OR CA-DLC-CAPR-37 (with 2500-37TSC Battery)

The CA-DLC-CAPR-HH System Series is based on the 2083-03 CAPR Helmet

The two Systems within this Series differ only by the Battery, the "36", or "37" Battery
These Systems are configured with the 2061-04A Hard Hat and Cuff or Shroud Face/Head Covers

CA-DLC-CAPR-HH-36 (with 2500-36TSC Battery) OR CA-DLC-CAPR-HH-37 (with 2500-37TSC Battery)
