

All CAPR Base Systems are made up of four components Helmet - Battery - Battery Belt - Battery Charger

Base Systems may have noted Base System Peripherals to include when making a Complete System

A CAPR Complete System consists of

- A Base System
- Noted Base System Peripherals
- Disposables

The Helmet and Battery determine the available Disposable Head Covers for a Complete System

Helmet

2081-03 shown; options include 2083-03, 2084-03
All Helmets include and ship with a:

- Cage: 2051-07
- Power Cord: 2590-05 (Alternate is 2590-08)
- Liner: 2071-08 for 2081-03 and 2084-03,
2071-07 for 2083-03

Battery, Li-Ion

Battery typical run time per full charge allows optimizing charging frequency to duration of use per day

2500-36TSC (shown) is typically 4-10 hr/charge

2500-37TSC is typically 6-15 hr/charge

- Secure-Lock w/Pushbutton Release ensures connection
- Secure Belt Clip keeps Battery in place on Belt

Battery Belt

2000-76 (Alternates are 2000-77, 2000-78)

Belt may be placed under the outer gown to protect from contamination and decrease time and cost of cleaning

Battery Charger

2600-02 (Alternate is 2602-06 6-Gang Charger)

Charger choices allow optimizing number of batteries to number of electrical outlets available

Integrated timer discontinues charging when at full charge

Status LED indicates charging sequence

CAPR Base Systems are configured around the Helmet

Three Base System Pairs differ by Helmet choice of Battery, the “36”, or “37”

The CA-DLC-CAPR Systems are based on the 2081-03 CAPR Helmet

The 2081-03 Helmet includes the 2071-08 Standard Pads Liner, and the Standard Lens Mounts

- For Cuff and Shroud disposables, Peripherals include -
 - ▶ 2061-08 Filter Cover Cap
 - ▶ Choice of Filter
 - Filter Cartridge: 2167-10 XP, 2166-10 XP N-OV
 - Filter Cap: 2180-05 HE
- For Hood disposables there are no required Peripherals

CA-DLC-CAPR-36 (with 2500-36TSC Battery) OR CA-DLC-CAPR-37 (with 2500-37TSC Battery)
